A CHECKLIST OF RECENT BOOKS WRITTEN, EDITED, OR TRANSLATED BY FACULTY AND STAFF WOMEN OF THE UNIVERSITY OF WISCONSIN SYSTEM

The following list highlights books published since 1980 by women scholars at the institutions of the University of Wisconsin System. Included are books for which UW System faculty or staff women are authors, co-authors, editors, co-editors, compilers, translators, or illustrators. A range of scholarly research, text books and other instruction-oriented publications, trade paperbacks and books for a general audience, and literary works are represented in this list.

This is by no means an exhaustive listing. In preparation for a presentation to the Board of Regents on women's scholarship in February 1985, titles were gleaned from back issues of the UW Memo and submitted by institutional administrators, who gathered information from colleges, departments, programs, and public information offices, among other sources. Since that initial survey, a number of additional titles have come to our attention and been included, but a systematic bibliographic search has not been repeated. We regret that some important new and forthcoming titles are no doubt absent. Books written by faculty and staff no longer in the UW System may likewise have been overlooked. We would appreciate being informed of titles we missed, for future editions of the list. Please send updated bibliographic entries to: Women's Studies Librarian, 112A Memorial Library, 728 State St., Madison, WI 53706.

The aim of this list is to recognize, through the limited indicator of recently published books, the range of scholarship and professional writing done by UW System women academics. This limitation does not permit recognition of books published before 1980, journals or series of publications edited by women, articles in scholarly periodicals, chapters in books, "in-house" publications, reports or other documents, or such creative work as individually published short stories and poems, musical compositions or performances, works of art, theatrical productions, or other types of professional output. Nevertheless, the breadth of inquiry undertaken by faculty and staff women will be evident from this list.
