ASIAN WOMEN IN AMERICA: A BIBLIOGRAPHY

This collection of print and audiovisual materials on Asian/Pacific-American women was originally compiled by Lynn Christensen in May of 1985, and was updated and revised by Linda Shult and Christina Wagner of the UW-System Women's Studies Librarian's office in March 1987. The definition of Asian/Pacific-American women includes women from China, Japan, Korea, India, the Philippines, and Southeast Asia who have immigrated to the United States, and women of Asian descent now living in the U.S. In an effort to limit the length and scope of this listing, material on Asian women in Canada and Europe was largely excluded, as was anything published before 1970. Anthologies and reference works that cover both men and women or a variety of minority groups were also generally omitted. The bibliography, then, is not a complete listing of pertinent materials, but should provide sources for initiating or augmenting research on a number of topics. We welcome corrections and additions to the list.
